 California: 1-foot \$2.50; 2-foot \$5.00; 3-foot \$10.00.

SPECIAL NOTICE TO UNITED STATES CLIENTS

At the time of preparation of this list, our Government requires that
 special importation permits be secured from the Bureau of Plant Quar-
 antine, U.S. Dept. of Agriculture. Permits are free and owners of good
 collections are having no trouble in securing them. We will make out
 the application blanks for our clients.

However, a hearing is to be held in Washington during October, to con-
 sider changing the importation regulations. It is generally believed
 that they will be liberalized. In case it is made possible to sell
 plants after they have been imported under permit and inspected, we
 will import all orders under our own permits.

Remember that plants to be furnished from this list will be much bet-
 ter plants than can be furnished for the same money from the propaga-
 tions from our stock in Anaheim.
